

Connectors for FRP profiles

As part of the overall solution, we offer dedicated connectors for profiles: angles, arches, cross connectors, base connectors for fixation, and more.

The connectors enable convenient, strong, and aesthetic modular construction.

The connectors are designed for a variety of applications:

Manufacturing of railings and stairs

Floating floor constructions

Pergolas and shading structures

Industrial infrastructure and more

Short tee

Suitable for 50 mm round pipe

Long tee

Suitable for 50 mm round pipe

Tea 30°

Suitable for 50 mm round pipe

cross 30° connector

Suitable for 50 mm round pipe

Cross connector

Suitable for 50 mm round pipe

Top corner

Suitable for 50 mm round pipe

Middle connector

Suitable for 50 mm round pipe

angle 90°

Suitable for 50 mm round pipe

arc 90°

Suitable for 50 mm round pipe

Universal angle changer

Suitable for 50 mm round pipe

Angle changer

Suitable for 50 mm round pipe

Side bracket

Suitable for 50 mm round pipe

Base bracket

Suitable for 50 mm round pipe

Base bracket

Suitable for a 50*50 mm square profile

Connectors for FRP profiles

arc 90°

Suitable for a 50*50 mm square profile

Cross connector

Suitable for a 50*50 mm square profile

way connector-4

Suitable for a 50*50 mm square profile

way connector-3

Suitable for a 50*50 mm square profile

Base bracket

Suitable for a 50*50 mm square profile

Side connection connector

Suitable for a 50*50 mm square profile
